DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to creating a soundtrack, classified in class 434, subclass 318.
 - II. Claims 21-27 and 42-44, drawn to automatically selecting and playing a soundtrack, classified in class 386, subclass 69.
 - III. Claims 28-33, drawn to user's interface and user's selection of a soundtrack, classified in class 345, subclass 700.
 - IV. Claims 34-38, drawn to switching execution of a new soundtrack, classified in class 386, subclass 57.
 - V. Claims 39-41, drawn to soundtrack menu, classified in class 345, subclass 810.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Groups II-V are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombinations as claimed because creating a soundtrack does not require a specific method for selecting and

playing a soundtrack, switching execution of a new sound track and displaying soundtrack menu of the subcombinations of Groups II-V. The subcombinations have separate utility such as automatically select a soundtrack, manually selection of a soundtrack, switching playing from one soundtrack to another soundtrack, and displaying a soundtrack menu.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
